RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents:

In response to the Restriction Requirement dated September 9, 2004, applicant hereby provisionally elects with traverse, Group I, claims 1-13 and 16-18, for examination at this time.

The Examiner states in his Restriction Requirement that the inventions listed as Group I and II do not relate to a single general inventive concept under PCT Rule 13.1 because they lack the same or corresponding special technical features. Applicant respectfully disagrees. Applicant directs the Examiner to the issued priority document, namely, U.S. Patent No. 6,350,082 B1, which included both method and apparatus claims directed toward the present invention. A Restriction Requirement was not issued in this parent application. Applicant therefore contends that the presently pending method and apparatus claims from Group I and II do relate to a single general inventive concept and therefore traverse the restriction requirement.

Respectfully submitted,

Seed Intellectual Property Law Group PLLC
